Subject: TSCA Section 8(e) Submission

**Contains No CBI**

8EHQ-97-13952

Dear Sir/Madam:

Elf Atochem North America, Inc. (Elf Atochem) has received preliminary results of an acute toxicity study in *Daphnia magna* and is submitting these results to the Environmental Protection Agency (EPA) pursuant to Toxic Substances Control Act (TSCA) Section 8(e). This study does not involve effects in humans.

This information recently came into our possession via our parent company in France and provides information on isobornyl acrylate, CAS number 5888-33-5. Nothing in this letter is considered confidential business information of Elf Atochem.

In this study, the 48-hour EC<sub>50</sub> to *Daphnia magna* was calculated to be 0.99 mg/l with a 95% confidence interval ranging from 0.85 to 1.2 mg/l. These results will be incorporated into the Elf Atochem Material Safety Data Sheet for the material.

Further questions regarding this submission may be directed to me at (215) 419-5890.

Sincerely,

Debra Randall, DABT  
Product Safety Manager
